

Dear Principal:

This message is to notify you that I am unable to report for in-person work at the school building because of the abnormally dangerous health conditions at the school due to the pandemic and my belief that reporting for in-person work would place me in imminent danger. I am ready and willing to perform my work duties, but cannot work inside my school building.

This letter to the Mayor and the Board of Education, which I have signed, details the safety concerns CPS has failed to address: <https://www.ctulocal1.org/posts/right-to-safety/>. Previously, I performed my work duties remotely, and I am prepared to continue working remotely until these safety issues are resolved.

Sincerely,

---
